

THE NH TRAINING INSTITUTE ON ADDICTIVE DISORDERS

Presents:

CORE FUNCTION IV: ASSESSMENT

with Kelly Luedtke, MED. CAGS, MLADC

1 HOUR WEBINAR TRAINING

PRESENTATION: The core function of assessment requires that the counselor or person doing the assessment: Be knowledgeable about the signs and symptoms of substance use disorders and co-occurring mental health disorders; Skillful and thorough in obtaining, reviewing and evaluating the client's history; Accurate in making a preliminary diagnosis utilizing the DSM-5. Assessment is not a static moment in the treatment process. It begins in the screening interview and continues throughout treatment. Assessment ultimately defines the client's treatment plan. As a result of this webinar participants will be able to:

1. Identify characteristics of substance use disorders
2. Identify co-occurring mental health problems associated with substance use
3. Understand Global Criteria associated with the core function of assessment
4. Describe assessment procedures and commonly used assessment tools
5. Describe ASAM-6 Dimensions
